Program Description

The primary objective of the Accounting concentration is to provide a series of educational experiences at the undergraduate level that promotes student success in careers in the Accounting profession. The broad range of Business core and Accounting concentration course offerings provides opportunities for placement in business, public accounting firms, governmental entities, or nonprofit organizations. Furthermore, the flexibility of elective hours in the major allows opportunities for some specialization. The Accounting program at Wayne State College strives to build professionals who are not only knowledgeable about the technical rules associated with accounting, tax, and auditing but are also equipped to act as business advisors and information specialists. Students wishing to sit for the Uniform Certified Public Accountant Examination in Nebraska (as well as most other states) need to have a college degree and have finished, or be in the process of finishing, 150 semester hours at the time of application. The specific requirements in Nebraska include 30 semester hours in accounting (past introductory accounting), 36 semester hours in general business, 60 semester hours in general education, and elective hours. These additional hours can be obtained by taking graduate hours in the Wayne State College MBA program.
