

Getting Logged Onto wsc-secure Wireless Network

1. You will see a yellow pop-up bubble in the lower right hand corner of your screen.

*This can take a couple minutes after boot up.

2. Click directly on the bubble.
3. A new box will pop up in the middle of your screen asking for a username and password. That box will look like the following.

Enter Credentials

User name:

Password:

Logon domain:

OK Cancel

4. In the username box enter your WSC Network ID. (What you use for ecampus)
5. After that enter the corresponding password.
6. The Logon domain box gets left blank.
7. Click ok.
8. If everything is correct you will be logged onto the wsc-secure wireless network.
