History of Wayne State College

Wayne State College is located in Wayne, Nebraska, a city of about 5,500 in northeastern Nebraska. Omaha, Lincoln and Sioux City, Iowa, are within easy driving distance of Wayne. These three cities and Norfolk, Nebraska, 30 miles from Wayne, are served by scheduled airlines.

The College was established as the Nebraska Normal College at Wayne in 1891, and was founded and operated by Professor James M. Pile until his death in 1909. In that year, the Nebraska State Legislature authorized the purchase of the property, buildings and equipment of the Nebraska Normal College and renamed it the State Normal College. It opened under that name in September 1910, with Dr. U.S. Conn as president.

In 1921, by act of the State Legislature, the school became a State Normal School and Teachers College with legal authority to grant baccalaureate degrees in education. In 1949, the Legislature changed the name of the institution to Nebraska State Teachers College at Wayne and granted authority to confer the baccalaureate degree for study in liberal arts. The graduate program leading to a master's degree was authorized in 1955, and in 1963 the Legislature changed the name of the college to Wayne State College.

WSC has an average enrollment of about 3,500 students during the regular session. Summer enrollment totals about 2,200 in the May, June, and July sessions.

Overview of the Current Role and Mission

WSC is a regional public college and is a part of a three-school state college system geographically positioned to serve rural Nebraska.

The College's basic mission is twofold: it strives to develop students of a wide range of academic abilities through quality teaching and support, and it strives to assist with the development of its service region through the delivery of public service programs and activities.

The College is primarily an undergraduate institution offering a comprehensive curriculum with equal emphasis on the arts and sciences, business and teacher education. Graduate programs are offered at the master's level in Business Administration, Education and Organizational Management and at the Education Specialist level in Education. Additional master's level programs will be developed in other fields as regional demand requires and as authorization is provided.

The College has built upon its rich tradition as a teachers college by emphasizing strong teaching and helpful out-of-class support in a personalized setting. A comprehensive co-curricular program of student activities offered in a manageable residential setting provides students with opportunities to enhance personal characteristics and leadership abilities. In addition, the College has extended its tradition of helping by becoming a regional service center enhancing the quality of life and fostering development in its rural service region. The public service programs and activities provided are in large part a product of the applied research and community service activities of the College's faculty and staff.

As a regional public college functioning as one of many public agencies of the State of Nebraska, WSC's mission is driven by the social and economic utility of its work. The themes, which guide the College's work, are:

Student Development

By reaching and educating more of the traditional and non-traditional students in our service region, we will have a major impact on the essence of rural development—educated citizens.

- Students are human capital, our most precious resource for the future.
- In order to reach, educate and graduate more of the potential students in our service region we must remain affordable and accessible.
- Our emphasis on teaching and support services in a personalized setting increases our students' likelihood for success.

Regional Development

We are a center, a focal point, and a catalyst in northeast Nebraska, not only for education but also for the arts, cultural activity and community and economic development assistance.

- Our challenge is to increase the availability of a well-educated labor pool while helping our rural communities enhance the quality of life they offer.
- Rural revitalization can be enhanced significantly by aggressively delivering the college's public service programs to communities in our service region.
- We are a public agency carrying out a regional agenda for the benefit of statewide development.

In all WSC does, it strives to remember that it is not the end product; its students and its region are the end products. The College is an investment vehicle, a public agency, carrying out a regional agenda on behalf of statewide development.

Program Description

The Master of Business Administration (MBA) is a professional graduate degree designed primarily to provide an intense educational experience for students who wish to assume positions of increasing responsibility in business.

The WSC MBA curriculum consists of two major components. The first component is described as “Common Body of Knowledge” (CBK) courses. This group of courses includes an introductory level course in each functional area of business. Students who have an undergraduate degree in business will typically have completed most, if not all, of these courses. The second curriculum component is the professional graduate courses.

The WSC MBA program requires 30 graduate credit hours. The MBA program is broad in nature and requires students to complete a structured program of one or more courses in each area of business, and also permits students to complete a small specialization in one area. It is designed for those who wish to further their professional development without terminating their employment.

MBA Mission Statement

The mission of the WSC MBA program is to provide graduate business students with the knowledge, tools, and experiences necessary to engage in productive problem-solving and decision-making in a dynamic business environment. Special emphasis is placed on the development of effective, ethical, and accountable managerial skills applicable to a global environment as well as the mastery of technical aspects of decision-making. WSC is committed to providing students with an integrated mix of theory and practice, offered by a highly-qualified faculty, to meet the needs of current and future managers.

MBA Degree

Candidates for the MBA degree will enroll in the following program:

Non-Thesis Program

The non-thesis option requires satisfactory completion of the 30 credit hour professional graduate program of study. No written thesis is required. An MBA student shall file with the Graduate Office and the School of Business & Technology Office one acceptable graduate paper. The file paper is written in BUS 692 and must be accepted by the MBA file paper committee and filed in the WSC Graduate Office.

All Graduate Students

Students may enroll in graduate courses after they have made application for graduate study. The procedure requires that students complete the Graduate Application for Admission, and that they request an official transcript from the undergraduate institution conferring the baccalaureate degree be sent directly to the Admissions Office. Students who wish to be admitted to a graduate degree program should have the baccalaureate degree from an accredited institution.

A student with a baccalaureate degree from an institution which is not accredited by one of the six regional associations of colleges and schools may be accepted conditionally, subject to an evaluation after the completion of requirements for formal admission to a graduate degree program.

Students also need to meet the specific admission requirements listed for each program in addition to the general requirements listed below.

General Degree Requirements

Total Semester Credits

The MBA consists of a minimum of 30 semester credit hours.

Grades

A minimum overall average of “B” (3.00 on a 4.00 scale) will be required of all graduate students. This average is based on all courses attempted. In computing this average, no grade below a “C” for WSC courses will be accepted toward completion of the MBA. A “C-” is not acceptable. A course receiving an S/NC grade cannot be used in the MBA degree program. At least 30 credit hours must be beyond the common body of knowledge component in courses normally reserved for graduate students.

Transfer Credit

A maximum of nine graduate credits (15 from another Nebraska State College or University), subject to evaluation by the Dean of Business and Technology, may be transferred from another graduate institution and applied toward a degree from this College. Only transfer credit of “B” grade or better will be accepted. A “B-” is not acceptable.

Academic Load

The maximum load of graduate credit hours for graduate students, without special permission, is 9 hours during regular sessions, 4 hours during the May session, and 7 hours during the June and July sessions. A graduate student who wishes to register for more than the maximum number should consult with his/her advisor, then contact the appropriate School office for approval and forward that information to the Office of Records and Registration. Full-time status for graduate students is 9 credit hours.

Satisfactory Progress

Graduate students working on a graduate degree must maintain an overall GPA of 3.0 to continue in good standing. Graduate students who do not maintain an overall GPA of 3.0 will be placed on probation for the next 6 credit hours. If they fail to raise their GPA to a 3.0, they will be removed from their program. Appeals may be made to the appropriate School office and subsequently to the Graduate Council.

Time Limit

Commencing with the date of first course registration, all requirements for the degree must be met within seven (7) calendar years. Courses can be no more than 7 years old at the time of graduation.

Final Examination

No comprehensive final examination is required. However, BUS 692 Administrative Policy will be utilized as a capstone course for all MBA candidates.

Graduation

Students must file an Application for Graduation with the Graduate Office no later than the end of the second week of the semester in which they intend to graduate. All other requirements, including completion of in-progress grades from previous terms, must be met by the end of the sixth week of the semester of graduation.

Summer graduates with no more than six credit hours of course work and/or an internship remaining to complete their degree during the summer are eligible to participate in May commencement ceremonies. All other program graduation requirements must be completed by the set dates as if they were a May graduate.

Once a student's name appears in a commencement program, their name will not be listed again in any subsequent commencement programs, nor will the student be able to participate in any upcoming commencement exercises.

Students must have at least an overall GPA of 3.00 to graduate. Graduate degrees carry no "honors" designation.

The final date of this period is published in the class schedule each semester and summer session and is strictly followed. After this period, the refund schedule applies only in the event of complete withdrawal from college. Professionals with extensive business experience are encouraged to complete online tutorial classes to clear up any missing course deficiencies through <https://www.mbaprepworks.com/login/index.php>. The process in this evaluation is as follows:

1. The MBA office will evaluate the student transcripts for CBK deficiencies
2. Deficiencies will be noted, the student will be notified, and then directed to go to the Ivy Software site to take a **preliminary exam** in the appropriate deficiency area(s) (\$25 cost).
3. If the student does not pass the preliminary exam, they will purchase an **online tutorial course** from Ivy Software (\$75/subject area), study the material and take the follow up test.
4. When a student has passed a preliminary exam or online tutorial course, they should notify the MBA Office. Verification will then take place and the CBK deficiency will then be removed.
