2026-27 Academic Year

SPECIAL EDUCATION GENERALIST

Subject endorsement to teach grades 6-12

Not all students learn in the same way, and there is a high demand for qualified special education teachers who can provide personalized instruction and support to students with disabilities, or students who may face unique challenges. In the Special Education degree program at Wayne State, you'll learn how to provide individualized instruction tailored to the unique needs of students with exceptionalities. You'll also learn about special education law and develop the advocacy skills needed to ensure your students receive the resources, support, and accommodations they need. The Special Education degree program at WSC will help you develop the collaboration strategies you'll need to work with professional service providers, agencies, and parents.

The Special Education Generalist (6-12) subject endorsement is not a standalone program. You must also select a second subject endorsement or field endorsement to receive your B.A. or B.S.

fast facts

Credit hours: 40

Students must also take 30 credit hours of General Studies courses. A total of 120 credit hours are needed to graduate from WSC. Additional majors or minors can be added to help meet graduation requirements.

Student learning outcomes

Special education

1. Use evidence-based inclusive practices to develop meaningful learning experiences for students with special educational needs in accordance with relevant legislation

Educator preparation

Teacher candidates who successfully complete an education preparation program at Wayne State will be able to:

1. Create environments that support individual and collaborative learning using knowledge of how students grow and develop, along with individual differences and diverse cultures. (InTASC Standards 1-3)
2. Plan for instruction by applying content knowledge, a variety of instructional strategies, and multiple methods of assessment to connect concepts for learners in real-world applications. (InTASC Standards 4-8)
3. Engage in ongoing professional learning and use evidence to reflect on and adapt practice to meet the needs of each learner. (InTASC Standard 9)
4. Seek leadership roles and opportunities to take responsibility for student learning, to collaborate with stakeholders, and to advance the

education faculty
