“

One of the reasons I chose Wayne State was the cost.

The cost of school can be concerning, but Wayne State offered plenty of ways to lower my costs and avoid debt. I received a scholarship for academic excellence — I was automatically considered when I applied. This kind of support is what makes it possible to pursue your desired career path, regardless of financial situation. I love the small town feeling of Wayne and the slower pace of life. Nevertheless, there are plenty of activities, and I'm never bored. Saying goodbye to my family was hard, but coming to Wayne State was the best choice I could make for my education.
