

STRENGTH AND CONDITIONING GRADUATE CERTIFICATE

Certificate of Advanced Studies

The Strength and Conditioning Certificate of Advanced Study is a graduate-level credential designed for students who want to advance their expertise in athletic performance training and evidence-based program design. The certificate may be earned as a standalone credential or completed alongside a master's degree. Coursework explores advanced strength and conditioning concepts including exercise physiology, training adaptations and recovery, sports nutrition planning, mental performance, exercise technique and instruction, performance testing and evaluation, periodization, and program design. These courses are designed to help students strengthen their professional skill set and prepare for the NSCA's Certified Strength and Conditioning Specialist (CSCS) exam.
